Introduction to Survey Methodology
SurvMeth 988.008
Summer, 2024

Time: Monday-Friday 9 am – 12 pm (June 10 – June 14, 2024)

Location: Zoom

Instructors: Emilia Peytcheva, Ph.D. Andy Peytchev, Ph.D.
RTI International RTI International
emilia@umich.edu andrey@umich.edu

Overview:
This course covers the basic principles of survey design and methods and introduces the necessary components of a good quality survey. The course employs the Total Survey Error framework to discuss sampling frames and designs, modes of data collection and their effects on survey errors, the cognitive processes involved in answering survey questions and their impact on questionnaire design, pretesting methods and post-data collection processing. The goal of the course is to give an introduction to the skills and resources needed to design and conduct a survey.

Recommended Text:

Course Website: TBD

Copies of the instructor's powerpoint slides and reading materials will be available on the course website before each class.

Zoom Information: TBD
Course Schedule:

Monday, June 10
Instructor: Peytcheva

9-10 am: Introduction, Survey Error, Standardization, and Operationalizing Constructs

Groves et al., 2009 – Chapters 1 and 2

10am-12 pm: Measurement Error and Writing Survey Questions – Behavioral and Attitudinal Questions

Tuesday, June 11
Instructor: Peytcheva

9-10 am: Pretesting Methods

Groves et al., 2009 – Chapter 8

10 am-12 pm: Measurement Error and Modes of Data Collection – Interviewer, Self, and Mixed-mode Data Collections

Groves et al., 2009 – Chapter 5

Biemer, P. and Lyberg, L. (2003), Data Collection Modes and Associated Errors, Chapter 6 in *Introduction to Survey Quality*, New York; Wiley

Wednesday, June 12
Instructor: Peytcheva

9-10 am: Coverage Error

Groves et al., 2009 – Chapter 3

10am-12pm: Sample Design and Sampling Error – Simple Random Sampling, Systematic Sampling, Stratification and Clustering

Groves et al., 2009 – Chapter 4

Thursday, June 13
Instructor: Peytchev

9-12pm: Nonresponse Error
Groves et al., 2009 – Chapter 6

Friday, June 14
Instructor: Peytchev

9 am-10 am: Adaptive and Responsive Survey Designs

10 am-12 pm: Weighting and Post Data Collection Processing

Groves et al., 2009 – Chapter 10
